TECHNICAL SKILLS

Structural Engineering: reinforced concrete · steel construction · structural design · load calculations · Eurocodes · BAEL · DTU

Technical Design: formwork · reinforcement detailing · construction details · calculation reports

Inspection: drawing review · compliance verification · quality control · technical inspection

Analysis: modeling · static, dynamic, and modal analysis · EN 1990 · EN 1991-2

Digital Tools: Python · Jupyter · numerical modeling · calculation automation

Cost Management: quantity take-offs · bills of quantities · progress claims · quotations · cost estimates

CORE STRENGTHS

- Attention to detail and accountability
- Analytical and problem-solving skills
- Leadership and project management
- Adaptability and teamwork

SOFTWARE

- RSA, CYPECAD, Graitec, CBS
- DDC, EXPERT, RMD7
- AutoCAD, Revit, ArchiCAD
- Jupyter, VS Code (Python)
- Microsoft Office, LaTeX

LANGUAGES

- French (fluent)
- English (technical proficiency)
- Wolof (fluent)

INTERESTS

- Applied civil engineering research
- Basketball and running
- Travel and cultural exploration

CIVIL ENGINEER

Civil engineer specializing in structural engineering, with experience at a technical inspection firm. Skilled in **structural analysis and modeling**, preparation of execution drawings, and compliance reviews. Also delivers training in structural analysis software.

PROFESSIONAL EXPERIENCE

Jun. 2026 – Present

FOUNDER AND CEO – COS ACADEMY
COS Academy, Dakar, Senegal
- Founded and developed an online training platform specializing in civil engineering.
- Delivered practical training in industry-specific software, structural analysis methods, and technical tools.
- Provided video courses, PDF guides, and professional resources.

Jun. — Aug. 2026
(3 months)
–
Aug. — Oct. 2025
(3 months)

CIVIL ENGINEERING INTERN – TECHNICAL INSPECTION FIRM
SEATEC SENEGAL, Dakar, Senegal
- Reviewed formwork and reinforcement drawings, as well as structural calculation reports.
- Inspected steel structures and verified compliance with execution drawings.
- Performed site quality inspections, reviewed reinforcement works, and prepared technical reports.

Aug. — Sep. 2024
(2 months)

ASSISTANT SITE MANAGER INTERN – PLUMBING
SENTRA BTP SA, Dakar, Senegal
- Monitored plumbing works across 222 villas.
- Supervised structural works on a G+3 villa.
- Managed material procurement and prepared progress claims.

Jun. — Jul. 2023
(2 months)

SITE SUPERVISOR INTERN
SENTRA BTP SA, Dakar, Senegal
- Monitored foundation works for a G+7 building with a basement.
- Supervised and coordinated on-site teams.
- Managed inventory and material procurement.

FREELANCE EXPERIENCE

2024 – Present

FREELANCE REINFORCED CONCRETE DESIGNER
Independent Projects, Senegal
- Prepared reinforced concrete execution drawings, including formwork and reinforcement details.
- Reviewed drawings for compliance and identified non-conformities.
- Prepared technical reports with proposed corrections and recommendations.

COMMUNITY INVOLVEMENT

2026 – Present

TEAM BÊS – VOLUNTEER
School painting and refurbishment projects, Dakar, Senegal
- Participated in painting and refurbishment projects at schools.
- Contributed to community efforts to improve school environments.

EDUCATION

2023 — 2026

PROFESSIONAL ENGINEERING DEGREE IN CIVIL ENGINEERING (DIC)
Saint-Louis Polytechnic Institute (IPSL), Saint-Louis, Senegal

2021 — 2023

HIGHER DIPLOMA IN CIVIL ENGINEERING TECHNOLOGY (DST)
Dakar Higher Polytechnic School (ESP), Dakar, Senegal

2018 — 2021

SCIENTIFIC BACCALAUREATE (S1)
Maba Diakhou BA High School (LMDB), Nioro du Rip, Kaolack
