Zenodo – Research Paper
Driver's License (Class B)

TECHNICAL SKILLS

Structural Engineering: Reinforced concrete · Steel structures · Structural design · Load assessment · Eurocodes · BAEL · DTU

Design: Formwork · Reinforcement detailing · Construction details · Structural calculations

Inspection: Drawing review · Code compliance · Quality control · Technical inspection

Structural Analysis: Modelling · Static, dynamic and modal analysis · EN 1990 · EN 1991-2

Computational: Python · Jupyter · Numerical modelling · Calculation automation

Cost Estimation: Quantity take-offs · Bills of quantities · Progress measurements · Cost estimates

CORE STRENGTHS

- Attention to detail and accountability
- Analytical thinking and problem-solving
- Leadership and project management
- Adaptability and teamwork

SOFTWARE

- RSA, CYPECAD, Graitec, CBS
- DDC, EXPERT, RMD7
- AutoCAD, Revit, ArchiCAD
- Jupyter, VS Code (Python)
- Microsoft Office, LaTeX

LANGUAGES

- French (fluent)
- English (technical proficiency)
- Wolof (fluent)

INTERESTS

- Applied research in civil engineering
- Basketball and running
- Travel and cultural discovery

CIVIL STRUCTURAL ENGINEER

Civil engineer specialising in structural engineering, with experience in technical inspection. Skilled in **structural analysis and modelling**, preparation of construction drawings, and compliance reviews. Also experienced in training users in structural analysis software.

PROFESSIONAL EXPERIENCE

June — Aug. 2026
(3 months)
–
Aug. — Oct. 2025
(3 months)

STRUCTURAL ENGINEERING INTERN – TECHNICAL INSPECTION OFFICE
SEATEC SENEGAL, Dakar, Senegal

- Reviewed formwork, reinforcement and structural calculation drawings.
- Inspected steel structures and checked compliance with construction drawings.
- Performed site quality control and reinforcement inspections; prepared technical reports.

Aug. — Sept. 2024
(2 months)

PLUMBING SITE ENGINEER INTERN
SENTRA BTP SA, Dakar, Senegal

- Monitored plumbing works across a 222-villa development.
- Supervised structural works on an R+3 villa.
- Managed material procurement and prepared progress measurement statements.

June — July 2023
(2 months)

CONSTRUCTION SITE ENGINEER INTERN
SENTRA BTP SA, Dakar, Senegal

- Monitored foundation works for an R+7 building with a basement.
- Supervised and coordinated site teams.
- Managed material stock and procurement.

FREELANCE WORK

2024 – Present

FREELANCE REINFORCED CONCRETE DESIGNER
Independent Projects, Senegal

- Prepared construction drawings for formwork, reinforcement and reinforced concrete.
- Reviewed drawings for compliance and identified design discrepancies.
- Prepared technical reports with corrections and recommendations.

2026 – Present

STRUCTURAL ANALYSIS SOFTWARE INSTRUCTOR
Online

- Provide training in structural analysis software.
- Model and analyse reinforced concrete buildings.
- Design structural elements.
- Prepare formwork and reinforcement drawings.

EDUCATION

2023 — 2026

ENGINEERING DEGREE IN CIVIL ENGINEERING (DIC)
Institut Polytechnique de Saint-Louis (IPSL), Saint-Louis, Senegal

2021 — 2023

HIGHER DIPLOMA OF TECHNOLOGY IN CIVIL ENGINEERING (DST)
École Supérieure Polytechnique de Dakar (ESP), Dakar, Senegal

2018 — 2021

SCIENTIFIC BACCALAUREATE (S1)
Lycée Maba Diakhou BA (LMDB), Nioro du Rip, Kaolack, Senegal
